Dear Ms. Bare:

On behalf of the Franklin County, Virginia Board of Supervisors, I am writing to forward their resolution to request that the FERC extend its public comment period on the Mountain Valley Pipeline project docket number PF15-3-000 and to hold a scoping meeting in Franklin County. It is our understanding that Franklin County has the most linear feet of the proposed pipeline of any Virginia locality yet scoping meetings were held more than an hour's drive for many of our residents.

Our elected officials are concerned about keeping our residents informed and their questions answered. Your assistance in seeing that these two requests are granted would be most helpful in addressing that concern.

Should you have any questions, please do not hesitate to contact me and thank you in advance for your assistance.

Sincerely,

Richard E. Huff, II  
County Administrator
